Migration Requirements

Receiving solutions on or before 15 November 2024:

- **Must** have published PINT A-NZ receiving capabilities for end-users to their SMP
- **Must** be able to receive and process PINT A-NZ messages
- Should continue support for BIS Billing 3.0 A-NZ messages to support flexible deployment of sending solutions.

Sending solutions as soon as practicable after 15 November 2024, and before 15 May 2025:

- **Must** support Address & Capability Lookup (ACL) for PINT A-NZ (including wildcard)
- **Must** have PINT A-NZ sending capability for end-users
- **Must** stop sending documents prepared with the current BIS Billing 3.0 A-NZ specifications

The PAs are aware that a smooth transition requires all SPs to meet their obligations and we are committed to keeping friction in the network to a minimum. The Australia and New Zealand PAs will be contacting all SPs over the coming weeks to check that the changes required have been understood and plans are in place to meet the November deadline.
